Wyoming PSC No. 2
Original Sheet No. 22
Cancels _____ Sheet No. _____

SERVICE: ELECTRICITY

NET METERING SERVICE

Rate Code: NM

APPLICABLE:

This rule applies to any member/owner that owns and operates a solar, wind, hydroelectric or biomass generating facility with a capacity of not more than twenty-five (25) kilowatts that is located on the member/owner's premises, is interconnected and operates in parallel with the Association's existing distribution facilities, and is intended primarily to offset part or all of the member/owner's own electrical requirements measured by the Association at a single metered facility located at the immediate interconnection point of the member/owner's generating facility. This schedule is offered in compliance with Wyoming Statute Ann 37-16-101 to 104.

AVAILABLE:

This service shall be available to member/owners of Wheatland Rural Electric Association who agree to the requirements of this tariff and who signs an interconnection agreement for net metering service in a form generally in conformance with the agreement attached to this tariff.

DEFINITIONS:

Net Metering means measuring the difference between the electricity supplied by the Association and the electricity generated by an eligible member/owner-generator and fed back to the electric grid over the applicable billing period.

MONTHLY BILLING:

The Electric Service Charge shall be computed in accordance with the Monthly Billing in the applicable standard service tariff.

SERVICE CONDITIONS:

1. If the electricity supplied by the Association exceeds the electricity generated by the member/owner, the prices specified in the Energy Charge section of the Monthly Billing of the applicable standard service tariff shall be applied to the positive balance owed to the Association.
2. If the electricity supplied by the customer-generator exceeds that supplied by the Association, the member/owner shall be billed for the appropriate monthly charges and shall be credited for such net energy with the kilowatt-hour credit appearing on the bill for the following month.
3. At the beginning of each calendar year, any remaining unused kilowatt-hour credit accumulated during the previous year shall be sold to the Association at the avoided cost for the applicable calendar year. The kWh rate for the avoided cost shall be established by utilizing the "Energy Cost" component of the Association's wholesale rate received from its supplier in the January billing of the previous calendar year. rate is available on the Tariff Rate Rider sheet number 19 on file at the Wyoming Public Service Commission. This rate shall remain in effect for the entire previous calendar year, unless the wholesale power supplier increases or decreases its rates to the Association, in which case the new rate will automatically apply.

4. The member/owner is responsible for all costs associated with its facility, for all costs related to construction of facilities, for all costs related to any modifications to the facility, for all maintenance cost of facility and for all costs related to any modifications to the facility that may be required by the Association for purposes of safety and reliability.
5. A Net Metering facility shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories.
6. The member/owner shall, at its expense provide lockable switching equipment capable of isolating the net metering facility from the Association's system. Such equipment, shall be approved by the Association and shall be accessible by the Association at all times.
7. The Association shall not be liable directly or indirectly for permitting or continuing to allow an attachment of a net metering facility, or for the acts or omissions of the customer-generator that causes loss or injury, including death, to any third party.
8. The Association shall have the right to disconnect the facility from the Association's supply at the disconnect switch, at its sole discretion, when necessary to maintain safe electrical operating conditions, or if the facility, at any time, adversely affects the operational integrity of the Association's service to the member/owner or other customers.

RULES:

Service under this Schedule is subject to the General Rules contained in the tariff of which this Schedule is a part, and to those prescribed by regulatory authorities.
